

A Day With Permisol

How Permisol can streamline permit issuance and tracking for your community.

Meet Jane Doe. Jane is the Clerk-Treasurer for Permisol, Indiana. We are going to see how Jane's day is made easier using Permisol for permit issuance and tracking. Along the way, screenshots are visible to show you just how easy Permisol is to use.

9:05 AM

Fred Contractor walks into the office to buy a permit for an addition he is building. Jane simply looks up his location in Permisol and enters the requested information. Permisol then calculates the permit cost and prints the permit forms. Fred is on his way in less than 5 minutes!

The screenshot shows the 'Issue Construction Permit' application window. It features a tabbed interface with 'General Info' selected. The location information is as follows:

9:45 AM

Edward Entrepreneur wishes to purchase a permit for his business located in Permisol. Jane simply follows the user friendly prompts in Permisol and generates the two page application form for Edward to sign. Later, the permit can be approved or denied and notification will be printed to send to Edward.

The screenshot shows a web browser window titled "Create Business License Application". The form is divided into several sections:

- General Info**: Includes input fields for Land Area, Building Size, Zoning, Number of Employees, and Number of Occupants.
- Business Type**: A large text area for describing the business type.
- Materials Used**: A large text area for listing materials used.
- Has the applicant or any partner or corporate officer for the applicant ever been denied a business license by the Town, or had license revoked or suspended?**: A question with radio buttons for Yes and No. The "No" option is selected.
- Have all taxes due the Town, County, or State been paid?**: A question with radio buttons for Yes and No. The "Yes" option is selected. Below this is a text area for "If No, Explain".
- Username:** and **Password:** input fields.
- Submit Application** and **Cancel Application** buttons.

11:15 AM

The assessor's office calls asking for a list of building permits issued in Permisol. Jane simply prints an assessor's report which contains locations, job costs, job types, and notes for all permits issued.

1:30 PM

Sally Vendor inquires about purchasing a temporary vendor permit to sell T-Shirts at the Town Parade over the weekend. Using Permisol, Jane simply looks up Sally's information for the previous year's parade and issues a permit to Sally. Using the clone function, Jane can then copy the information to issue a permit for Sally's concession trailer. Both permits are completed within minutes!

2:45 PM

Mark from the code enforcement office calls inquiring whether a contractor has bought a permit for a roofing job in town. Jane simply enters the address she is looking for and Permisol lists all permits issued to that address. She can then quickly inform Mark of the results so he can continue with his duties.

3:25 PM

Jeff from the code enforcement office wishes to schedule an inspection at the local hotel. Using Permisol, he simply enters his inspection date and time for the hotel permit. Permisol then generates a notice letter informing the hotel's owner of the upcoming inspection. After the inspection, Jeff can enter his inspection notes into Permisol and change the permit status of the individual hotel rooms.
